

## 61mm Length 4mm Width Nickel Battery Tab With Adhesive Polymer Tape

### Our Product Introduction

for more products please visit us on [lithiumbattery-machine.com](http://lithiumbattery-machine.com)

#### Basic Information

- Place of Origin: China
- Brand Name: MRBEST
- Model Number: PLIB-NTA4
- Minimum Order Quantity: 100 Sets
- Price: Negotiable
- Packaging Details: Standard Export Carton Packing
- Delivery Time: 3-15 working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000000 sets per month

#### Product Specification

- Name: 4mm Width Nickel Tab With Adhesive Polymer Tape
- Material: Nickel 99.99%
- Width: 4mm
- Length: 61mm
- Thickness: 0.09mm In Aluminum Tab/ 0.28mm In Aluminum Tab With Adhesive Polymer Tape
- Max. Loading Current: 3A
- Highlight: **4mm Nickel Battery Tab,**  
**61mm Nickel Battery Tab**

## Product Description

## 4mm Width Nickel Tab with Adhesive Polymer Tape as Negative Terminal for Pouch Cell, 50pcs/Box

4mm Wide Nickel Tabs for use as the Negative Terminal of Polymer Li-ion Batteries 50pcs/Box

### Specification

Material	Nickel 99.99% Adhesive Polymer Tape on the tab allows for immediate hot sealing (horizontal polymer strip is made of modified polypropylene (PP) and polyethylene naphthalate (PEN))
Length	61mm
Width	4mm
Thickness	0.09mm in Aluminum Tab 0.28mm in Nickel Tab with Adhesive Polymer Tape (9.0 mm L * 5.2 mm W)
Max. Loading Current	3A
Net Weight	160mg/pcs
Gross Wight	18g (Tabs with Box)
Application	1. Connect to cathode current collector as polymer battery positive terminal 2. Suggested Sealing Method: (parameter below may vary from case to case) - Soft type heat-sealing blade (Blade with rubber, see MR-SFZ200) - 180-200C for upper blade - 160-180C for lower blade - 40PSI (0.3Mpa) - 3 seconds heating time Adhesive Polymer Tape on the tab allows for immediate hot sealing
